

Dear Lt. Corey Culler,

Given the subject matter I did expect push back from the police department regarding one of their own. I was very disappointed in our phone conversation. It seemed aggravated and, I can accept some blame for that as I am struggling to get answers for this but, the answers given were dismissive. We can do better than that. You sent the video to the proper department. Is this department also getting the information I had sent along? The truth of the altercation with Mr. Repass. Did anyone do the math, or simply dismiss this lie also. Again, anyone familiar with the area won't have to. You stated it could be possible. It isn't. You also stated tampering with the video evidence is impossible. It isn't. I know.

I did not jump from my vehicle and I did not put my hand in my waistband among other items on the supplied evidence video. Conversations with both parties will reveal that the impossible has come true. My police evidence video was altered. It seems you have employees doing it right behind your back. I'm assuming behind your back. This is not what you want to hear, but it is the truth. Let's fix it together. The video has been tampered. Let's not make this a what he said he said drama. I have myself been a humble member of the Fort Wayne community for over twenty five years and currently, humbly, working in the Bluffton area for the past thirteen. My spoken word is better secured than your editing room. I am told the officer does not edit his own video so perhaps three people are involved. This is where we ask for your help. The truth Lieutenant Corey Culler. The sooner the better. That man is a disgrace to the police uniform and has soiled the name United States Marine.

When I expressed my concern about the altered video to officer Walker his immediate response was that it was impossible one hundred percent of footage is uploaded. The same line you gave me when I mention the situation to you. If I didn't already know the truth I would be inclined to believe you. You are the police. This is what makes it so horrible. Not Impossible. Plausible, Happening, and Horrible.

Can we try again, across the table perhaps, and work towards the truth of the matter. It will take the both of us to fix. Feel free to pass along my information and the packet I brought to the police station to any department you feel can help.

Sincerely,

John Fennelly
